MUS'AB OLURODE

Remote (GMT+1) | me@musab.dev | LinkedIn Profile | Github | Portfolio

PROFESSIONAL SUMMARY

Full-stack engineer with 7+ years of experience shipping web apps, mobile apps and the backends behind them for startups, agencies, non-profits and public institutions. Most recently the senior engineer on the team behind Canoo, the Institute for Canadian Citizenship platform that has welcomed over a million newcomers. Works across TypeScript, React, Next.js, React Native, Node.js, NestJS, Laravel and Go, and is comfortable owning a product end to end.

CORE COMPETENCIES

- Frontend development
- Mobile app development
- Web3 development
- Backend and API development
- Database design
- Technical leadership

WORK EXPERIENCE

Senior Full Stack Engineer

Contract · Remote, Canada

Institute for Canadian Citizenship

Jul 2025 – Present

- Senior engineer on the team building Canoo, working across the React Native app, the Next.js website (canoo.ca) and the Node.js backend and CMS.
- Helped ship the relaunched canoo.ca, which presents 2,000+ free and discounted experiences across Canada to newcomers and partners.
- Supported the platform as it grew past one million members.

Senior Frontend Developer

Full-time · Remote, UK

Studio 14

Aug 2022 – Jul 2025

- Led the design and development of front-end applications, building responsive, accessible interfaces for NGOs, public bodies and agencies.
- Built the front end of the Newborn Toolkit for NEST360 and UNICEF, including its PANSAA partnership subsite, and the Sandwell Business Growth council site.
- Revamped the CEMatchMaker platform, improving site performance by 35% and user engagement by 40%.
- Optimised the WorldKite residency tracker, reducing page load times by 50% and extending its tax-tracking features.
- Developed admin panels for Ericc Help Desk and the Gender Lens platform, reducing administrative workload by 25%.

Back End Developer

Full-time · Remote, US

Montech Studios Inc.

Feb 2022 – Jul 2022

- Built backend infrastructure supporting over 10,000 concurrent users on blockchain applications.
- Streamlined API integrations for Web3 applications, reducing data retrieval latency by 40%.

Fullstack Developer

Full-time · Nigeria

Scrapays Technologies

Jan 2020 – Aug 2022

- Built the first version of the Scrapays web and mobile platform independently, creating infrastructure that met early-stage business needs.
- Shipped the Android app on Google Play, growing its user base by 300% in the first six months.
- Developed a real-time IoT waste-tracking system that improved operational efficiency by 50%.
- Delivered demo-ready applications that helped secure partnerships.

Software Engineer

Freelance · Remote

The Binary Agency

Jan 2019 – Jan 2020

- Built and maintained bespoke web applications for multiple clients, delivering to specification and on time.
- Delivered five client projects on schedule, each with a 95% satisfaction rate.

EDUCATION

University of Ilorin

B.Sc. Computer Science

PROJECTS

- **Canoo:** A free app opening Canada's museums, parks and concerts to newcomers. Senior engineer on the team across the app, canoo.ca and the backend.
- **Newborn Toolkit:** Implementation toolkit for small and sick newborn care, co-created by NEST360 and UNICEF, with the PANSAA partnership subsite.
- **Scrapays:** First version of the recycling platform: web, Android app and real-time IoT tracking.
- **More Studio 14 work:** CEMatchMaker, WorldKite, Ericc Help Desk, Gender Lens and Sandwell Business Growth.
